In like a Lamb...

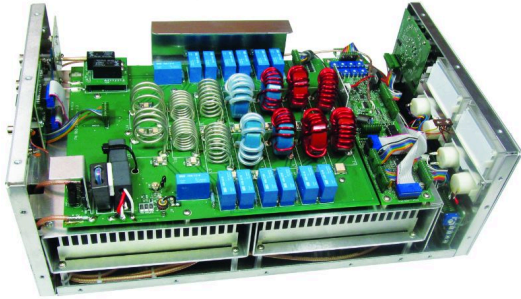

Out like a lion?

In like a lamb, out like a lion. Mississippi can go both ways in March. We could realistically have 70 degrees and sunshine early on or nasty, wet and cold. It's was a strange January for sure. We had an ice storm that shut down the factory for a whole week and then the end of the month our little town got flooded with a whole bunch of rain. I think I would rather take the Lion early on in March and then look for this cute cuddly lamb to open up spring for us in the end. March is a great month, we end our daylight savings time fiasco, we celebrate St. Patrick's Day (my granddaughter loves traditional Irish Folk music -- it is happy!), and Spring begins! Flowers start coming out, hope not too early. You never know if the Lion is heading around the corner! I know that picture is all cuddly and cute, but in reality if the lamb came before the lion wouldn't the lion just eat the lamb? After all, it is pretty darn tasty! I think at MFJ we have a lot

LAMB

**ALS-1306**

Ameritron gives you **LION** sized features: HF+6-Meters, Automatic bandswitching, matching switching power supply, 1200 Watts output!

**MFJ-986**

This is a **BEAST** of a tuner with just one capacitor to mess with. The Differential-T handles full legal limit power, gives you a large Cross-Needle SWR/Wattmeter and multiple antenna connections!

AV-680 is a lion's antenna for sure. 33 feet tall, 80-6 Meters, full legal limit power handling. Get an **ATB-75** tiltover base to pull it down in early or late **March** so a lion of a storm doesn't take it down and cause you to cuss!
